Benefits under the Plan

Death Benefit

The death benefit depends on the plan option chosen and is paid to the nominee(s) or beneficiary(ies), provided the policy is in force, as indicated in the table below:

| | | Option 1 | Option 2 |
|---|----------------------------|-------------------------------|-------------------------------|
| Death within waiting Period | Accidental Death | Death Sum Assured | 2 x Death Sum Assured |
| | Death due to other reasons | Total premiums paid till date | Total premiums paid till date |
| Death after waiting Period but during policy Term | Accidental Death | Death Sum Assured | 2 X Death Sum Assured |
| | Death due to other reasons | Death Sum Assured | Death Sum Assured |

Option 1 (Life Cover)

The death benefit equal to one “Death Sum Assured” will be payable to the nominee(s) or beneficiary(ies), provided the policy is in force, -

- ♦ In case of death of the life assured due to accident during the waiting period
- ♦ In case of death of the life assured after the waiting period due to any cause

The death benefit equal to 100% of Total Premiums Paid till date will be payable to the nominee(s) or beneficiary(ies), provided the policy is in force, -

- ♦ In case of death of the life assured during the waiting period due to other than an accident

Option 2 (Life Cover with in-built accidental death cover)

In addition to the death benefit payable under Option 1 (Life Cover), an additional benefit equal to one more “Death Sum Assured” will be payable to the nominee(s) or beneficiary(ies), provided the policy is in force, -

- ♦ In case of death of the life assured due to accident anytime during the policy time

The policy will terminate on payment of the death benefit.

“**Waiting period**”(applicable for other than accidental death only) is a period of first 90 days from the date of acceptance of risk. Waiting period is not applicable in case of revival.

“**Death Sum Assured**” is defined as higher of

- 10 times annualized premium if age at entry is less than or equal to 45 years & 7 times annualized premium if age at entry is above 45 years
- 105% of the Total Premiums Paid till the date of death
- Surrender Value on the date of death

‘**Annualized premium**’ means the premium amount payable in a year chosen by the policyholder excluding the taxes, rider premiums, underwriting extra premiums and loadings for modal premiums, if any.

‘**Total Premiums Paid**’ is the total of all premiums received excluding any extra premium, any rider premium and taxes.

‘**Accidental death**’: Death due to an accident where accident is defined as that which is sudden, unforeseen and involuntary event caused by external, visible and violent means. Accidental injuries, solely, directly and independently of all other causes resulting in death of the life assured within 180 days from the date of occurrence of accident, shall be considered as death due to accident.

Maturity Benefit

In case of survival of the life assured up to the end of the policy term, provided the policy is in force, the Guaranteed Maturity Sum Assured will be payable immediately in lump sum and the policy will be terminated.

Guaranteed Maturity Sum Assured = Maturity Benefit Factor * Basic Sum Assured

Where, Basic Sum Assured = Premium Paying Term * Annualized premium

Sample Illustration

Let’s understand this plan with an example. Ravi, a 33 year old businessman is looking to buy a life insurance plan to safeguard his family in his absence and save money for the future. He decides to buy Shriram Life POS Assured Savings Plan (Option 1) as it offers him flexibilities to change the Policy Term, Premium Payment Term and Premium Payment Frequency anytime he would like, in case the need to do so arises. He chooses a Policy Term of 15 years, Premium Payment Term of 8 years and Annualized Premium of Rs. 25,000.

Scenario 1: Survival to Maturity

On survival to maturity, Ravi will receive Rs. 3,57,000 in lump sum as Maturity Benefit after paying total premiums of Rs. 2,00,000.

How did we arrive at this value?

Basic Sum Assured (BSA)

= Premium Payment Term X Annualized Premium

= 8 X 25,000

= Rs. 2,00,000

Guaranteed Maturity Sum Assured

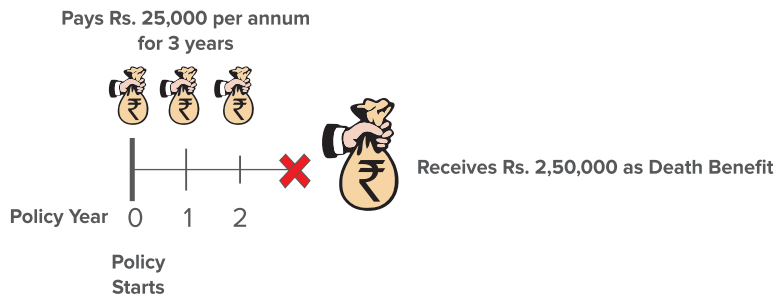

= BSA X (Maturity Benefit Factor + Higher Premium Additions)%

= 2,00,000 X (160.5 + 18)%

= 2,00,000 X 178.5%

= Rs. 3,57,000

Scenario 2: Unfortunate demise during Policy Term

Ravi suffers a stroke in the third policy year and passes away. His family receives Rs. 2,50,000 in lump sum as Death Benefit.

How did we arrive at this value?

Since Ravi’s age at entry is below 45 years, his Death Benefit will be 10 times the Annualized Premium.

Death Benefit = 10 X 25,000

= Rs. 2,50,000

Premium Payment Mode

In case you find it difficult to pay the premium for the whole year at once, you can also pay your premiums in Half-yearly, Quarterly or Monthly modes. Where premiums are paid in non-yearly mode, the instalment premium will be multiplied by the modal factor as shown below to arrive at the Annualized Premium:

| Mode | Half Yearly | Quarterly | Monthly |
|--------|-------------|-----------|---------|
| Factor | 1.967 | 3.900 | 11.636 |

Grace Period

We understand that sometimes due to unavoidable circumstances you might find it difficult to pay your premiums on time. Don’t worry, we got you covered! We allow a grace period of 30 days for payment of premium for non-monthly modes and 15 days for monthly mode. Moreover, in case if the life assured dies during this grace period and the premium for that period is still due, we still provide you the life cover and the death benefit shall be paid to the Nominee(s)/ Beneficiary(ies) after deducting the said unpaid premium. If the premium remains unpaid at the expiry of the Grace Period, the policy will lapse provided the policy doesn’t acquire the paid up value. If the policy has acquired the paid up value, the policy will not lapse but will continue with the reduced paid up benefits.

Lapse

To get the maximum benefits out of the plan, we don't want you to lapse the policy and request you to pay your premiums as and when due.

During first two Policy Years

In case the premium remains unpaid at the expiry of the Grace Period during the first two years, the policy will lapse and no benefits will be paid.

After first two Policy Years

In case the premium remains unpaid at the expiry of the Grace Period after the first two policy years, provided that the premiums of first two years have been paid in full, the policy status will change to paid up. This paid up policy will then continue up to the expiry of the Policy Term or till the death of the Life Assured, whichever is earlier.

Paid up Value

As mentioned above in Lapse section that even if you discontinue paying your premiums and have paid at least two years premium in full, your policy will get converted into a paid up policy. Under paid-up policy all your benefits (i.e. Death Benefit, and Maturity Benefit) will reduce proportionately.

The proportionately reduced benefits will be calculated as follows:

Paid up Death Benefit:

Option 1 (Life Cover)

- In case of death of the life assured within the policy term, "Paid-up Death Sum Assured" will be payable in lump sum to the nominee(s) or beneficiary(ies) and the policy will be terminated.

Option 2 (Life Cover with in-built accidental death cover)

- In case of death of the life assured due to other than accident within the policy term, "Paid-up Death Sum Assured" will be paid in lump sum to the nominee(s) or beneficiary(ies) and the policy will be terminated.
- In case of death of the life assured due to accident within the policy term, two "Paid-up Death Sum Assured" will be payable in lump sum to the nominee(s) or beneficiary(ies) and the policy will be terminated.

Paid-up death sum assured = Death Sum Assured *(No of premiums paid/Total no. of premiums payable)

Paid up Maturity Benefit:

In case of survival of the life assured up to the end of the policy term, "Paid-up Maturity Sum Assured" shall be paid on maturity date to the life assured. This is applicable for both the options.

Paid-up Maturity Sum Assured = Guaranteed Maturity Sum Assured *(No of premiums paid/Total no. of premiums payable)

Revival of Lapsed Policy or Paid-up Policy

We also provide you the option of restoring the full benefits in case of both a lapsed or a paid up policy. A policy can be revived anytime within five years from the date of first unpaid premium as per the company's Board approved underwriting policy by paying all outstanding premiums (from date of first unpaid premium to date of revival) together with interest at a rate as approved by IRDAI. The revival interest rate currently is 7% p.a. The revival interest rate is determined as Average Annualized 10-year benchmark G-Sec Yield (over last 3 months prior to the review date & rounded up to the nearest 50 bps) + 0.5% with minimum floor rate of 7%. The interest rate shall be reviewed yearly on 1st April of each year.

Surrender Value

You have bought this policy with specific needs to meet some financial goal. We would highly recommend you to continue this policy for the full term to reap the full benefits from it. In case of any financial emergency you may take a loan against your policy instead of surrendering the policy. You have an option to surrender the policy before its maturity after premiums have been paid for at least 2 years.

On surrendering the policy, you will receive Surrender Value, which is higher of the Special Surrender Value (SSV) and the Guaranteed Surrender Value (GSV).

Guaranteed Surrender Value (GSV)

The Guaranteed Surrender Value is expressed as a percentage of total premiums paid (excluding any extras, rider premiums and taxes).

| Policy Term | 10 | 10 | 15 | 15 | 15 |
|-------------|------|------|------|------|------|
| PPT | 8 | 10 | 8 | 10 | 15 |

| 14 | - | - | 131% | 128% | 120% |
| 15 | - | - | 140% | 137% | 127% |

Special Surrender Value (SSV)

The Special Surrender Value will depend on actual experience and prevailing and expected economic conditions. The policy will terminate once the Surrender Value has been paid.

Loans

In situations where you are in desperate need of money for short term, you can take Policy Loans within the surrender value. Policy Loans equal to 80% of the surrender value, if any, are available on the policy. However the policy holders are allowed to take lower amount of loan than the available loan if they desire.

The loan interest rate is fixed at 8% p.a. compounding half yearly. The loan interest rate is determined as Average Annualized 10-year benchmark G-Sec Yield (over last 3 months prior to the review date & rounded up to the nearest 50 bps) + 1.5% with minimum floor rate of 8%. The interest rate shall be reviewed yearly on 1st April of each year. Any change in basis for loan interest rate will be done only after the prior approval from the Authority.

Interest will accrue on the outstanding loan balance at a rate declared by the company from time to time. Any outstanding loan with accrued interest will be recovered from policy proceeds before any benefit is paid on the policy. The Company will ensure that no in force/ fully paid up policy will be cancelled due to non-repayment of loans.

In cases of policies other than in-force and fully paid-up, if outstanding loan amount including interest exceeds the surrender value, the policy will be foreclosed after giving intimation and reasonable opportunity to continue the policy.
