Let us understand with an example. Harish, a 30 year old man working in a private firm, saves money to ensure he has sufficient income when he is 45 years old to take care of his life style and family. He opts for 15 years premium payment term and pays an annual premium of ₹1,00,000 + taxes.

The following examples explain the 3 possible cases that can occur provided the policy is inforce -

1) If Harish survives till the end of the Policy Term - (Maturity)

If death happens anytime during the policy term, death benefit is paid and the policy terminates.

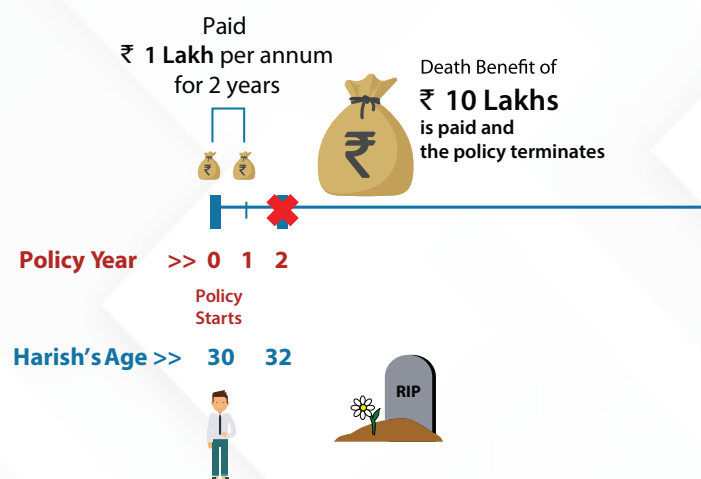

If Harish survives till the end of the policy term he will get Super Income Benefit* of ₹11,888 per month for next 30 years after premium payment term & he will also get a Lump sum amount of ₹5,00,000 as Maturity benefit*. The guaranteed super income will not only help him take care of his liabilities before retirement but also to live a comfortable life even after retirement. Apart from the guaranteed payouts, Harish will also get life insurance cover till the age of 75 years. In case of his death anytime during the policy term, the Nominee(s) / Beneficiary (ies) will get the death benefit* and the policy terminates.

2) If Harish dies at Age 72 (Death after the Premium Payment Term)

If Harish dies at Age 72, apart from the monthly income which Harish would have already received till he was alive, the Nominee(s) / Beneficiary(ies) will get a lump sum amount of ₹15,75,000 as death benefit* and the policy terminates.

3) If Harish dies at 32 (Death during the Premium Payment Term)

If Harish dies within the policy term just after paying 2 annual premiums, his Nominee(s) / Beneficiary(ies) will get a lump sum amount of ₹10 Lakhs as death benefit* and the policy terminates.

How the plan works

1. Decide when you want the monthly income to start. This will help in deciding how long you have to pay your premium (i.e. Premium Payment Term). *You can decide this by predicting the age at which you want to retire or the age at which you expect an increase in personal liabilities etc.*
2. Decide how much money you can afford to pay in a year towards this plan. *Our representative will help you in generating benefit illustrations to find out the monthly income and the maturity amount that you will receive from this plan. All the benefits in this plan are guaranteed throughout the policy term.*
3. After you have paid all due premiums you will start receiving the guaranteed income. *The monthly income is payable as long as you survive or till 75 years of your age, whichever is earlier.*
4. On surviving the policy term, you will receive a Lump Sum amount on maturity date. *This lump sum amount (Guaranteed Maturity Sum Assured) will be 5 times of your Annualized Premium.*
5. In case of unfortunate death of the life assured during the policy term, the Nominee(s)/ Beneficiary (ies) will receive the Death Benefit. *The Death Benefit (Death Sum Assured) will be paid to the Nominee(s) / Beneficiary (ies) and the plan terminates.*

Grace Period

We understand that sometimes due to unavoidable circumstances you might find it difficult to pay your premiums on time. Don't worry, we got you covered!

We allow a grace period of 30 days for payment of premium for non-monthly modes and 15 days for monthly mode. Moreover, in case if the life assured dies during this grace period and the premium for that period is still due, we still provide you the life cover and the death benefit shall be paid to the Nominee(s)/ Beneficiary(ies) after deducting the said unpaid premium

If the premium remains unpaid at the expiry of the Grace Period, the policy will lapse provided the policy doesn't acquire the paid up value. If the policy has acquired the paid up value, the policy will not lapse but will continue with the reduced paid up benefits.

Lapse

To get the maximum benefits out of the plan, we don't want you to lapse the policy and request you to pay your premiums as & when due.

During first Policy Year

In case if the premium remains unpaid at the expiry of the Grace Period during the first year, the policy will lapse and no benefits will be paid.

After first Policy Year

In case if the premium remains unpaid at the expiry of the Grace Period after the first policy year, provided that the premiums of first year has been paid in full, the policy status will change to paid up. This paid up policy will then continue up to the expiry of the Policy Term or till the death of the Life Assured, whichever is earlier.

Paid up value

As mentioned above in Lapse section that even if you discontinue paying your premiums and have paid at least one year premium in full, your policy will get converted into a paid up policy. Under paid-up policy all your benefits (i.e. Death Benefit, Super Income Benefit and Maturity Benefit) will reduce proportionately.

The proportionately reduced benefits will be calculated as follows-

- **Paid up Death Benefit**

In case of the death of the life assured, provided the policy is paid up, "Paid up Death Benefit" will be paid to the nominee(s) or beneficiary (ies).

$$\text{Paid up Death Benefit} = (\text{Total premiums paid} / \text{Total premiums payable}) \times \text{Death Benefit}$$

Where Death benefit is higher of "Death Sum Assured" or Surrender Benefit as applicable on the date of death

- **Paid up Maturity Benefit**

In case of survival of the life assured up to the end of the policy term, provided the policy is paid up, "Paid up Maturity Sum Assured" will be paid on the date of maturity.

$$\text{Paid up Guaranteed Maturity Sum Assured} = (\text{Total premiums paid} / \text{Total premiums payable}) \times \text{Guaranteed Maturity Sum Assured}$$

- **Paid up Super Income Benefit**

In case of survival of the life assured up to the end of the premium paying term, provided the policy is paid up, "Paid up Super Income Benefit" will be paid from the end of the premium paying term to the end of the policy term.

$$\text{Paid up Super Income Benefit} = (\text{Total premiums paid} / \text{Total premiums payable}) \times \text{Super Income Benefit}$$

Revival of lapsed and paid up policies

We also provide you the option of restoring the full benefits in case of both a lapsed or a paid up policy. A policy can be revived anytime within five years from the date of first unpaid premium as per the company's Board approved underwriting policy by paying all outstanding premiums (from date of first unpaid premium to date of revival) together with interest at a rate as approved by IRDAI.

-The revival interest rate is 8.5% pa.during the period 1st Jan 2025 to 30th April 2025.

The revival interest rate is determined by adding a margin of 1.5% to the 10- year annualised G Sec rate on 31st March of each financial year and applicable for all policy revivals during 1st May to 30th April of the following financial year. The interest rate derived as above shall be rounded down to 0.5%.

No fee will be charged towards processing of revivals.

Surrender Value

You have bought this policy with specific needs and long term goals. We would highly recommend you to continue this policy for the full term to reap the full benefits from the policy. In case of any financial emergency you may take a loan against your policy instead of surrendering the policy. To surrender the policy, the policyholder must have paid at least first full policy year's premium(s) and have completed

the first policy year.

On surrendering the policy, you will receive Surrender Value, which is higher of the Special Surrender Value (SSV) and the Guaranteed Surrender Value (GSV).

Guaranteed Surrender Value (GSV)

The policy acquires guaranteed surrender value provided premiums for at least two full years have been paid.

The Guaranteed Surrender Values are expressed as a percentage of total premiums paid (excluding any extra premium, any rider premium and GST). The super income benefit that is already paid will be deducted from the GSV.

Special surrender value (SSV)

The Special Surrender Value (SSV) becomes payable after completion of the first policy year, provided one full year's premium has been received.

Special surrender values which depend on the experience of the Company.

Loans

In situations where you are in need of emergency short term money, you can take Policy Loans within the surrender value. However the policy holders are allowed to take lower amount of loan than the available loan if they desire. The loan interest is 9.5% p.a. compounding half yearly during the period 1st Jan 2025 to 30th April 2025. Any change in loan

interest rate will be done only after the prior approval from the IRDAI.

If loan is availed during the premium paying term:

The maximum loan permissible is 80% of the surrender value. The interest on the loan shall be paid on half-yearly basis. In case if the loan is not repaid during the premium paying term and if there is default in the interest payment, then due Interest on the loan shall be recovered from super income benefits due or any other amount payable under the policy.

If loan is availed after the premium paying term:

The maximum permissible loan amount shall be lower of 60% of surrender value or the amount arrived at in such a way that the effective monthly interest amount payable on loan does not exceed 60% of the monthly super income benefit payable under the policy. Interest on the loan shall be recovered from the super income benefits at monthly loan interest rate of 0.79% p.m. during the period 1st Jan 2025 to 30th April 2025.

Other terms of loan:

The policy holders are allowed to take lower amount of loan than the available loan if they desire. The loan interest rate is fixed at 9.5% p.a compounding half yearly during the period 1st Jan 2025 to 30th April 2025.. The loan interest rate is reviewable and may change in future only after prior approval from IRDAI. Any outstanding loan with accrued

interest will be recovered from policy proceeds before any benefit is paid on the policy.

The loan interest rate is determined by adding a margin of 2.5% to the 10- year annualised G Sec rate on 31st March of each financial year and applicable for all policy loans issued during 1st May to 30th April of the following financial year. The interest rate derived as above shall be rounded down to 0.5%

No fee will be charged towards processing of loans.
