# Food inflation rises to 4.2% in Apr

SANDIP DAS  
New Delhi, May 12

**RETAIL FOOD INFLATION** remained in positive territory for four consecutive months in April, with a year-on-year rise of 4.2% in the relevant index, as tomatoes and coconuts became costlier. Sequentially, All India Consumer Food Price Index (CPI) rose by 0.25% last month, compared to March. Food inflation was at 3.87% in March.

Food prices were in deflation territory for seven months through December 2024. Food inflation was at 2.13%

in January, according to the new consumer price index series with a base year of 2024 introduced by the Ministry of Statistics and Programme Implementation.

Despite the rise in food inflation, prices of onion (-17.67%), potato (-23.69%), and peas (-6.75%) declined in April on a y-o-y basis.

These three commodities have a combined weightage of 1.50% in the CPI basket. However the prices of copra (44%), tomato (35%) and cauliflower (25%) reported high inflation, according to the official state-

ment by MoSPI.

Going forward, a building up of inflation is seen due to threat of El Nino development and its impact on kharif crops, says Madan Sabnavis, chief economist of Bank of Baroda.

Experts say that while prices of pulses and some vegetables such as potatoes and onions are ruling below last year's level, a rise in edible oil prices and some other vegetables would push up inflation in the coming months.

The India Meteorological Department forecast "below normal" southwest monsoon rainfall for June-September this

year, predicting 92% of the long period average, with a high 66% chance that the rains will fall in the "deficient to below normal" range.

The below-normal rainfall may impact the output of kharif crops — paddy, pulses and oilseeds — as the met department stated the development of the El Nino phenomenon in its forecast for July. Aditi Nayar, chief economist, ICRA, said that amid erratic weather conditions and supply disruptions, the y-o-y inflation in the food and beverage segment will inch up further to 4.5% in May.

# NEET-UG cancelled

THE NEET (UG) 2026 exam held on May 3 was cancelled on Tuesday amid allegations of paper leak with the CBI registering an FIR after the government asked it to carry out a comprehensive inquiry into the "irregularities".

Taking responsibility for the cancellation, the director general of the National Testing Agency, Abhishek Singh, on Tuesday said the schedule for the re-examination would be announced within the "next seven to 10 days".

The cancellation triggered nationwide outrage among medical aspirants, with students raising questions on NTA's competence and demanding that the exam be conducted by AIIMS-Delhi.

The Opposition also attacked the Centre, alleging administrative failure, insensitivity towards students and "repeated lapses" in the conduct of national-level competitive examinations. It too demanded an overhaul of the NTA.

The day also saw protests by activists of NSUI, SFI and other organisations at several places.

Though Union Education Minister Dharmendra Pradhan did not respond to media queries on the cancellation, the NTA said this is a matter of concern for the children, for their parents, and for the entire ecosystem. PTI
