CONVICTION RATE AT 0.93% DURING FY22-26

ED cases under PMLA in FY26 highest in 4 years

AANCHAL MAGAZINE
New Delhi, August 4

THE CASES REGISTERED by the Enforcement Directorate (ED) under the country's anti-money laundering law increased to a four-year high of 1,080 in the financial year 2025-26, taking the total cases to 4,622 in the last five years.

The conviction rate, however, remained low with the agency securing conviction only in 0.93% or 43 cases during 2021-22 to 2025-26. The agency had seen a decline in the number of cases registered under the Prevention of Money Laundering Act (PMLA) from 2021-22 to 2023-24, before picking up again in 2024-25 and 2025-26, data presented by the government in Parliament on Tuesday showed.

In response to a written question by CPI(M) MP V Sivadasan in Rajya Sabha, Minister of State for Finance Pankaj Chaudhary said the ED has filed prosecution complaints in 2,444 cases under the PMLA provisions before the special courts, PMLA as on June 30 this year. "These cases are at various stages of trial. The ED has arrested 1,243 accused under the provisions of the PMLA," the minister said. The agency had registered 1,116 cases in 2021-22, which then declined to 953 in 2022-23, and then to 698 cases in 2023-24, before picking up again to 775 cases in 2024-25 and 1,080 in 2025-26. In total, the ED has registered 4,622 cases under PMLA in the last five years, the data showed.

The rate of convictions was slow, with the agency securing convictions only in 43 cases in the last five years. Of the total 43 cases which saw convictions between FY22-26, the number of persons accused convicted in these cases stood at 104.

CASE FILE

Income tax cases

A total of 2,127 prosecution cases were filed by the Income Tax Department over the last five years (2021-22 to 2025-26). The number of prosecution cases were the lowest in three years at 432 in 2025-26 as against 611 in 2024-25, 502 in 2023-24 and 387 in 2022-23. In income tax matters, prosecution complaints are filed only after obtaining sanction from the competent authority under section 279(1) of the Income-tax Act, upon completion of investigation and recording of relevant facts, the minister said.

The Income Tax Department was able to secure conviction in just 233 cases over the last five years, with the convictions being the lowest in two years at 47 in 2025-26. The rate of acquittals was high, with a total of 854 cases seeing acquittals over the last five years, with the acquittals in 2025-26 rising to a four-year high of 293. The finance ministry said the number of prosecution cases filed and the figures relating to conviction or acquittal are not directly correlated, as convictions or acquittals may pertain to cases filed in different years.

DPDP Act: WhatsApp tests age confirmation

PRESS TRUST OF INDIA
New Delhi, August 4

WHATSAPP IS TESTING new ways for users in India to confirm their age as it prepares to comply with upcoming legal requirements, including those related to the Digital Personal Data Protection (DPDP) Act, the Meta-owned messaging platform said on Tuesday.

The company, however, said the test is optional and users do not have to confirm their age to continue using WhatsApp. It also said users' age information will remain private and will not be shared with others on the platform.

"To comply with upcoming laws in India like the Digital Personal Data Protection Act (DPDP), we are testing privacy-protective ways for people to confirm their age. This doesn't change how WhatsApp works or your experience," a WhatsApp spokesperson said in response to a PTI query.

Users have been taking to X to share screenshots of WhatsApp's nudge on adding date of birth with a message display that says "upcoming laws in India require us to ask for your age". The latest move has fuelled a social media chatter that the messaging platform could be gearing up for future age-verification requirements in the country. Early Tuesday, IT Secretary S Krishnan observed that the move "might be from the context of DPDP Act, where it is (provisions are) age-related." "But we will have to check with them... because we are approaching the deadline...," Krishnan said.

The Digital Personal Data Protection Act regulates the processing of digital personal data by balancing the right of individuals to protect their personal data with the necessity of processing such data for lawful purposes. The Act and associated rules outline several stringent provisions for platforms when it comes to processing the personal data of children, defined as individuals under 18 years of age.

The norms — when fully implemented — will require online platforms to obtain verifiable consent from the child's parent or lawful guardian, before any personal data of a child can be processed; platforms must adopt appropriate technical and organisational measures to ensure this consent is authentic.

LIFE'S ON

In a world that diversifies, we build just one asset.

Your trust.

To everyone who believed in our IPO, thank you for your trust.

For decades, people and families have walked through our doors and handed us the thing they value most – their health.

We will honour that faith by taking advanced healthcare to more people, more families and more tomorrows. So that, through every uncertainty, life can keep moving forward.

Life's On India.

50 hospitals | 24 cities | 11,000+ doctors | 13,000+ licensed beds | 24,000+ employees
