₹9K-cr PSU assets monetised so far in FY27: NLMC CEO

SHUBHAM RANA
New Delhi, November 3

THE NATIONAL LAND Monetisation Corporation (NLMC) has helped public sector companies monetise assets worth over ₹9,000 crore so far in the current financial year, according to Rohan Chand Thakur, chief executive officer, NLMC.

Assets worth ₹6,000 crore are expected to be monetised in the rest of FY27, Thakur said.

The NLMC CEO was speaking at the pre-bid meeting for e-auction of a 5.119-acre HIL (India) land parcel in New Delhi.

"The central government has accorded significant priority to the monetisation of surplus and underutilised land assets of central public sector enterprises, Thakur said.

"Our endeavour is to unlock the economic value of public assets through transparent, structured and competitive processes while facilitating their productive utilisation," Thakur said.

BSNL, MTNL, ITI and Rashtriya Ispat Nigam Limited (RINL) are some of the companies whose assets are in the pipeline to be monetised.

"These are cases where NLMC has done all the work. It has done the valuation, and even the payment is available," Thakur said.

NLMC is also in talks with various government departments, including telecom, steel, and chemicals and petrochemicals for asset monetisation, Thakur said.

Not only is NLMC facilitating monetisation of land parcels, as in the case of HIL, but also of flats in various cities, Thakur said.

HIL is looking to sell its 5.119-acre land parcel in Najafgarh industrial area, New Delhi, with a reserve price of ₹829.69 crore.

LAND AUCTIONS

- Assets worth **₹6,000 cr** likely to be monetised in the rest of FY27
- HIL has put its **5.119-acre** Najafgarh land parcel up for auction
- The land parcel carries a reserve price of **₹829.69 cr**

"The HIL land parcel, given its strategic location and development potential, presents an opportunity for eligible participants to explore its future utilisation," Thakur said.

The NLMC is a wholly owned central government company functioning under the administrative control of the Department of Public Enterprises, Ministry of Finance.

It was set up to undertake and facilitate the monetisation of surplus land and building assets of central public sector enterprises and other government agencies.

NLMC works with PSUs and other stakeholders to identify surplus and underutilised assets, undertake the necessary transaction structuring and facilitate their monetisation through transparent and competitive mechanisms.

Govt targets ₹3 lakh-cr defence production by 2029: Rajnath

PRESS TRUST OF INDIA
New Delhi, November 3

INDIA IS FOCUSING on building a robust domestic defence ecosystem as strategic autonomy and indigenous military capabilities are essential to effectively deal with national security challenges, Defence Minister Rajnath Singh said on Tuesday.

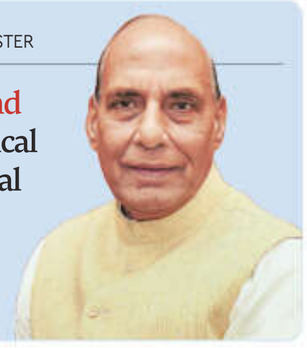

In an address at a meeting of the Consultative Committee of the defence ministry in Jaisalmer, Singh said the government has been boosting the domestic defence industry as part of efforts to reduce the country's strategic dependence on foreign sources.

"Strategic autonomy and indigenous technological capabilities are essential to safeguarding national security," he said.

The meeting witnessed comprehensive deliberations on emerging security challenges, warfare paradigms, technological advancements and the imperative of building a future-ready, technologically empowered and operationally agile military. The key focus areas that emerged during the deliberations included accelerating the induction of next-generation platforms and weapon systems and strengthening the tri-service integration, joint operational planning and synergised application of capabilities.

RAJNATH SINGH, DEFENCE MINISTER

Strategic autonomy and indigenous technological capabilities are essential to safeguarding national security

In his remarks, the defence minister emphasised the need for the military to remain prepared to combat emerging challenges and listed the steps taken by the government across key dimensions such as "budget and capital acquisition" and "technology and human capital" to equip the military to meet the evolving demands of technology-driven modern warfare.

He highlighted the government's sustained focus on budgetary support and capital acquisition to meet the modernisation requirements, stressing that adequate financial resources, coupled with effective utilisation and prioritisation of critical needs of the services.

Singh said the defence budget for FY27 was increased to a record ₹7.85 lakh crore, including a capital outlay of ₹2.19 lakh crore. On the vision of self-reliance in defence, he said that defence production has risen from ₹46,429 crore in FY15 to a record ₹1.78 lakh crore in FY26.

The defence exports, which stood at less than ₹2,000 crore in 2014, increased to approximately ₹40,000 crore.
